Re: Letter of Support

Dear Ms. Williams:

Waikiki Health Center appreciates the work that Aloha Harvest does in providing needed food to our Care-A-Van program and Next Step Project Emergency Shelter. Aloha Harvest is an important community partner providing food to our clients in a supportive and helpful manner bringing not only needed sustenance to our clients but the types and quality of food that they would not normally have access to.

The Waikiki Health Center's Care-A-Van (CAV) program provides services for individuals and families who are homeless many of whom need assistance in obtaining food.. CAV's primary purpose is to provide health care, behavioral health and social services to homeless individuals and families and those who are at risk for homelessness at its Emergency Shelter, Drop-in Center and through street outreach. The Next Step Project Emergency Shelter provides over 150 single men, single women, couples and families a safe place to stay every night.

We fully support the services provided by Aloha Harvest and are extremely fortunate to have them as a partner in helping the less fortunate residents of our community. If there is any way I can be of further assistance, please do not hesitate to contact me.

Mahalo,

Darlene W. Hein, Chief Community Services Officer
Waikiki Health Center
